- SpiroPerfect™ PC-Based Spirometer
- PC-Based Resting ECG

How Does It Work?

Welch Allyn Devices  ►  CardioPerfect Workstation Software  ►  MDsuite EHR Assessment and Plan
Frequently Asked Questions

Which devices are compatible with MDsuite?

SpiroPerfect™ PC-Based Spirometer

PC-Based Resting ECG

Is there a cost?

Yes, there is a small fee per type of device integration – Spirometry and ECG. There are also costs on the Welch Allyn side for the device and any needed Welch Allyn software. DSI does not sell Welch Allyn devices or Welch Allyn software.

Where do I purchase the device?

You can contact your Welch Allyn sales rep to purchase the device.

I have the device, what is next?

You will also need to be licensed for the device, Admin> Licensing Manager. If you do not have the device on your license, you can contact sales@mdsuite.com.

Once you are licensed for a device, MDsuite tech support can assist with setup. Additionally, if you search the MDsuite Help File for “Welch Allyn”, you will see the related topics- setup and usage. You will first “define” the device, and then use it in Assessment and Plan.
